EDUCATION

2021 - 2025	Bachelors In Computer Science COMSATS UNIVERSITY CGPA : 3.64 Final Project : Computer Vision Based Construction Site surveillance System
2019- 2021	Intermediate APSACS , D.I.khan FBISE: 990/1100

PROJECTS

SafeSitePlus

Intelligent Construction Site Safety System
(2024 - Present)

An AI-driven construction site monitoring platform leveraging computer vision and real-time analytics to ensure worker safety. Features include automated PPE compliance detection, incident management, and live alerts for supervisors.

SmartCivicBot

AI-Enabled Municipal Complaint Management System - React + FastAPI

An intelligent web solution that uses LangChain (Structured Output + RAG) and semantic search to analyze unstructured municipal complaints and automatically route them to the appropriate departments by email, referencing internal policy documents.

AskPolicy

AI-Powered Policy Assistant - React + FastAPI

A semantic search and question-answering system that enables users to query lengthy policy documents (PDFs) in natural language. Built using LangChain and vector databases to improve document accessibility and decision-making.

Quizlytic

AI-Powered Study Assistant - LangGraph + Tavily

A dynamic educational chatbot that generates quizzes, provides summaries, and answers academic questions. Designed to enhance learning through interactive, AI-powered tools.

FoodieCart

Full-Stack Food Ordering Platform - MERN Stack with Stripe Payment

School Management System: Mobile App for School Administration - React Native + Firebase

Leadership Roles & Notable Achievements

- **General Secretary**, C3 Society - COMSATS Islamabad
- **Co-Head**, Literature, C3 Society - COMSATS Islamabad
- **Final Year Project** showcased at CUI Expo 2025
- **Logistics Co-Director**, TEDx CUI 2024
- **Host**, TEDx CUI 2024 & 2025
- **Debate**, APSACS - Regional and Inter-school level
- **Top 5 Finalist** - Inter-University Coding Competition
- **Organizer & Co-Director (Logistics)** - TEDx CUI
- **Certificate of Participation** - International Seerah Conference, C3 Islamabad
- **Certificate of Appreciation** - Host at TEDx CUI 2025
- **USHER** at “Huawei ICT competition ” Comsats University (20225)

SKILLS

• Proficient in MERN Stack • Skilled in building Chatbots • Proficient in Laravel • Proficient in Java • React Native • Machine Learning (Basic) • Computer Vision (Basic) • Python Proficiency • RAG (Retrieval-Augmented Generation) • Image Processing • OpenCV • Data Annotation • Jupyter Notebook • Jupyter Notebook • Android Development • HTML • CSS • MS Office • Public Speaking • Event Management

WORK EXPERIENCE

Present	Full Stack Developer ZenDev ➤ Designed and implemented RESTful APIs, database schemas, and backend architecture. ➤ Developed responsive user interfaces using React and Next.js. ➤ Collaborated on scalable solutions with full ownership of frontend and backend modules. ➤ Led technical decisions and ensured seamless integration across the stack.
Sep 2023	Web Developer XposureVerse ➤ Built responsive web interfaces using HTML, CSS, and JavaScript. ➤ Assisted in developing frontend features and fixing UI/UX issues. ➤ Collaborated with team members using Git and project management tools.
Nov 2024	
2024	Director Event Management and Logistic COMSATS Tech Summit
2025	➤ Led the organization and execution of an inter-university tech competition. ➤ Designed problem statements and managed evaluation criteria for technical challenges. ➤ Coordinated logistics for award ceremonies, venue setup, and guest arrangements. ➤ Collaborated with university teams and sponsors to ensure smooth event operations
